

New... **BAIN de SOLEIL®** **Bronzeur Protectif**

With SPF 12

A Daily Dose Of ‘Sunshine’

You know that look you have after you’ve spent some time in the sun? Your cheeks are flushed, your eyes sparkle, your skin looks healthy and radiant. BAIN de SOLEIL® now brings you a new lightly tinted bronzing lotion that captures the look of the sun—and allows you to look that great all the time.

Introducing new BAIN de SOLEIL® Bronzeur Protectif—a lightly tinted lotion that does triple duty as a bronzer, moisturizer and sun-protector all in one.

The secret is in the combination of three special ingredients:

1. A subtle touch of bronze tint gives your skin a sheer, healthy glow of color.
2. A unique blend of luxurious moisturizers keeps your skin hydrated all day, incorporating an anti-oxidant complex and vitamin E to protect your skin, in a light emulsion that won’t clog your pores.
3. SPF 12 provides extra protection from damaging rays to guard against premature aging.

Specifically formulated to work with every skin tone, new BAIN de SOLEIL® Bronzeur Protectif can provide glowing color easily as part of your morning makeup routine. No need for heavy foundations or powders—just apply Bronzeur Protectif as you would your favorite moisturizer. You’ll notice the skin-illuminating glow immediately. And it’s so light and non-greasy that you’ll have no problem washing it off at the end of the day. Why settle for a simple moisturizer or sun-protector? Add some color to your life with BAIN de SOLEIL® Bronzeur Protectif.
